

# Daylight

Remedy Drive

Has everything you've counted on  
Left you right here with no warning  
Have your dreams become invisible  
Wait with me dear till the morning  
Light will make the night burnout

Hold on  
Daylight is coming  
To break the dawn  
Daylight is coming

The brightest stars are falling down  
Is hope lost in the black skies  
The darkness must precede the dawn  
Wait with me here till the sunrise  
Wait, your night will soon fade out

Hold on  
Daylight is coming  
To break the dawn  
Daylight is coming  
Daylight is coming

Hold on  
Daylight is coming  
To break the dawn  
Daylight is coming [Repeat]

[Instrumental Bridge]
