Daylight

Remedy Drive

Has everything you've counted on Left you right here with no warning Have your dreams become invisible Wait with me dear till the morning Light will make the night burnout

Hold on
Daylight is coming
To break the dawn
Daylight is coming

The brightest stars are falling down Is hope lost in the black skies
The darkness must precede the dawn
Wait with me here till the sunrise
Wait, your night will soon fade out

Hold on
Daylight is coming
To break the dawn
Daylight is coming
Daylight is coming

Hold on
Daylight is coming
To break the dawn
Daylight is coming [Repeat]

[Instrumental Bridge]
Daylight [2X]
