

Light Makes A Way

Remedy Drive

When the world is a wieght on your heart
if your starving your walting to start
when the colors are bleeding out
wheneverytng is falling apart

When the darkness falls like rain
and your stuck in a fear that you can t explain
and you cant take anymore
light makes a way for you

When the stars get lost in the skyy
and you can t find your way
and you dont know why your not sure what your looking for light
makes a way for you

How did this fear get to be so strong
how did this road get to be so strong
theres more behind these scars
cant see with just your eyes
and it can carry you on

and your stuck in a fear that you can t explain
and you cant take anymore
light makes a way for you

When the stars get lost in the skyy
and you can t find your way
and you dont know why your not sure what your looking for light
