

## Make It Bright

Remedy Drive

Lights out the waves are breaking  
Right now my trust is shaken  
I try to hold on tight  
But there's not much hope in sight

You came through  
Lights turned on inside of me  
The things You do  
Right the wrongs inside of me  
On my side every time  
Be the fire igniting me  
Light a spark in the dark  
And make it bright in me

When darkness is upon us  
I'm standing on a promise  
When I don't see anything  
I wait for the rescue that You bring  
That You bring

You came through  
Lights turned on inside of me  
The things You do  
Right the wrongs inside of me  
On my side every time  
Be the fire igniting me  
Light a spark in the dark  
And make it bright in me

I'm waiting on Your light  
When I can barely see  
I'm waiting on Your light  
To make it bright in me

You came through  
Lights turned on inside of me  
The things You do  
Right the wrongs inside of me  
On my side every time  
Be the fire igniting me  
Light a spark in the dark  
And make it bright in me
