

Stand Up

Remedy Drive

Why do our failures seem to have a voice
They say we're lost and we don't have a choice
They're telling us that we're not capable
They say our prison's inescapable

CHORUS:

Stand up now
They can't hold us down
Stand up now
Get up off the ground

Why does our brokenness keep whispering
It's telling us that we're not anything
I say no fall is going to keep us out
This fear is something we'll forget about

Chorus

bridge:

We're fallen - it can't hold us down
These failures - they hold us down
We're broken - they can't hold us down
We're fallen - get up off the ground
