

Find Your Kindness

Rend Collective Experiment

Little people slipping through the cracks
We've got a system but it won't bring them back
Disappearing down black holes of what we don't want to know
Civilization seems to rest on all the people that we can forget
I don't want to live off the grid anymore

Find your kindness, why can't we find our kindness
Find your kindness now

Twenty first century life
Neon lights and satellites
How do we miss what's before our eyes
Media can freeze ya into collective amnesia
And I don't want to forget anymore

When did democracy
Become a paper chasing bureaucracy
All of our hands got tied and we don't know how to be kind
Put a face to a name a real person to the numbers game
I don't wanna hesitate anymore
