

Keep Me Near

Rend Collective Experiment

Jesus keep me near to Your heart
For outside of You I'm lost
Draw me in the tide of Your will
Lead me as I yield myself to You

Keep me near Your heart
Keep me near Your heart

Rescue me in weakness of mind
When distraction conquers me
Keep me in Your shadow, O Lord
Give me grace to follow where You lead

Keep me near Your heart
Keep me near Your heart

You are everything that is beautiful
You are all that I long to see in me
You are everything that is beautiful
Breathe Your desires in me

Keep me in the place where You are
For Your presence is my joy
Break my selfish nature and pride
Mould a life of loyalty to You
Keep me near Your heart
Keep me near Your heart
Keep me near Your heart
Keep me near, whoah

You are everything that is beautiful
You are all that I long to see in me
You are everything that is beautiful
Breathe Your desires in me

Form in us a heart of divine beauty
Form in us a heart of divine beauty
Form in us a heart of divine beauty

Form in us a heart of divine beauty
Form in us a heart of divine beauty
Form in us a heart of divine beauty
Yeah

You are everything that is beautiful
You are all that I long to see in me
You are everything that is beautiful
Breathe Your desires in me
Yeah
