Movements

Rend Collective Experiment

I wanna soar with You Upon wings like eagles But I'll crawl with You too When the dark and lonely questions come

I wanna stand true No matter what's new or comes through I can't stand still Whatever hits I'll keep making movements to You

I'm running fast and free to You 'Cos You are the movement and fight in me I'm running fast and free to You 'Cos You are my home where I wanna be Come move in me Where I wanna be, come move in me

I wanna float with you The currents driving me But I'll paddle hard too When the waves and rapids overcome

I wanna stand firm When my mind's weak and my emotions squirm I must stand true Whatever hits I'll keep making movements to You

I won't walk away, won't walk away
