I want a little something more
Don't want the middle or the one before
I don't desire a complicated past
I want a love that will last

say that you love me
Say I'm the one
Don't kiss and hug me and then try to run
I don't do drama
My tears don't fall fast
I want a love that will last

I don't want a just a memory give me forever Don't even think about saying good-bye 'Cause I want just one love to be enough And remain in my heart till I die

So call me romantic
Oh I guess that's so
There's something more that you oughta know
I'll never leave you
So don't even ask
I want a love that will last

Forever

I want a love that will last I want a love that will last

So there's just a little more that I need I wanna share all the air that you breathe I'm not the kinda girl to complicate the past I want a love that will last

Forever

I want a love the love that last Always
I just want a love that will last Want a love that will last
