

Save Me

Renegade Five

When somethings going wrong
I feel I'm going down
I know I'm gonna die before things turn out right
Soon I end up dead
There's nothing in my way
I feel the rage rising up my face
It's not to late, to change my life
It's in my way, make up my mind
I gotta fight til the end
For things to change

Save me tonight
I'll wait for you to show me
I feel I'm losing ground and I can't understand
All the words you said to me
Save me for once... You gotta save me tonight

I know I can't survive
Walking on the line
I have to deal with all the things in my life
Listen to the words
Spoken in my mind
I never gonna fall again, cause I know

It's not to late, to change my life
It's in my way, make up my mind
I gotta fight til the end
For things to change

Save me tonight
I'll wait for you to show me
I feel I'm losing ground and I can't understand
All the words you said to me
Save me for once... You gotta save me tonight

You gotta save me, Cause I need to
Before I'm falling apart
You gotta save me, Cause I need to
There's a fire in my head tonight....You gotta save me...

Save me tonight
I'll wait for you to show me
I feel I'm losing ground and I can't understand
All the words you said to me
Save me for once... You gotta save me tonight
You gotta save me tonight
You gotta save me tonight
You gotta save me tonight
