

# Too Far Away

Renegade Five

You said to me  
Why can't you stay no more?  
You wish that I  
Could finally change my mind

I thought that you wasted  
All your time in a thousand wrong ways  
But now I slowly understand  
That I'm never gonna make it

Too far away  
Why didn't I take my chances?  
I see the love  
I had is washed away  
You're never gonna smile at me  
Cause you're only gonna say  
I'm too far away

I was cool though that I  
Could be on the road forever  
You would wait every time  
For sure standing on the doorstep  
But all that's remaining  
Is an emptiness in my heart  
And now I'm slowly gonna fall  
If I'm never gonna see you

Too far away  
Why didn't I take my chances?  
I see the love  
I had is washed away  
You're never gonna smile at me  
Cause you're only gonna say  
I'm too far away

(Too far away...)

Too far away  
Why didn't I take my chances?  
I see the love  
I had is washed away

Too far away  
Why didn't I take my chances?  
I see the love  
I had is washed away  
You're never gonna smile at me  
Cause you're only gonna say  
I'm too far away
