

# Win This Race

Renegade Five

I never wait, and stand in a line  
It's just nothing for me  
If you can move, and step to the side  
It's no illusion you'll see

Since I was small, standing so tall  
Nothing hit me too hard  
I gotta take, what's coming to me  
Nothing's gonna change my destiny

You'll never win this race  
Never make it, got to face the truth  
I show you what I feel  
One thing I know,  
you'll never win this race  
Think you got it  
But you loose control  
I got you in my hand  
You'll never win, never win this race

I wanna taste, I want it so bad  
This is the way it should be  
I cant belive  
You're making me weak  
And there's no way to go back

Just for a day, I'll show you the game  
And how I want you to play  
I never stop thinking what have I done  
Nothing can bring me down again

You'll never win this race  
Never make it, got to face the truth  
I show you what I feel  
One thing I know,  
you'll never win this race  
Think you got it  
But you loose control  
I got you in my hand  
You'll never win, never win this race  
You never win this race, You never win this race  
You never win this race, You never win this race  
(You never win this race)

You'll never win this race  
Never make it, got to face the truth  
I show you what I feel  
One thing I know,  
you'll never win this race  
Think you got it  
But you lose control  
I got you in my hand  
You never win this race
