

## Living Rooms

Revis

So what's your purpose for me  
With your intentions in the air  
So what if I wanted to  
Ask you  
If I could meet you there

Go inside I'm coming through  
For you  
I could not be more...gone

We watched each other escape  
From the commotion that we knew  
The way our languages fade  
In through an empty living room

Go inside I'm coming through  
Into our world that you surround

Show me now  
I'm here with you  
For you  
I could not be more...gone

Go inside I'm coming through  
Into our world that you surrounded

Show me now  
I'm here with you  
For you

I could not be more...gone
