

Save Our Souls

Revis

You took me way too high
Before they cut me down
It used to be my home
Used to keep me sewn
From just being around

We watched some endless nights
Staring at empty holes
O' won't you send me a line
And we can still climb enough to
Save our souls

And, turn this around
Put it behind
Like I didn't know
Turn on the light
Open your eyes
Like I didn't show
It may be enough to try to
Save our souls

They trampled on the fire
That we held in our heart
They twist it in our side
Whenever they tried to tear us apart

And when I held your hand
They said it wouldn't hold
But, I won't leave you tonight
And we can still fight enough to
Save our souls

And, turn this around
Put it behind
Like I didn't know
Turn on the light
Open your eyes
Like I didn't show
It may be enough to try to
Save our souls

We watched some endless nights
Staring at empty holes
O' won't you send me a line
And we can still climb enough to
Save our souls

Turn this around
Put it behind
Like I didn't know
Turn on the light
Open your eyes
Like I didn't show
It may be enough to try
To save our souls
To save our souls

And we can still climb enough to

To save our souls

Enough, to save our souls

Enough, to save our souls
