

Labyrinth of Eyes

Revocation

Eyes unblinking, affixed on us all
Feed the data stream
Glowing pupils like voracious maws
Stalking hungrily.

Purging us of every intimacy, undying is their vigilance
Rendition extraordinary, suppressing the dissidents.

Followed by orbs of glass
Watching our every move.

Trapped within their digital gaze
Ensnared in a binary web
Optic fibers growing like tendrils
Lurking overhead.

A maze of surveillance with no exit in sight
Surrounded by sentinels, nowhere to hide.

Followed by orbs of glass
Watching our every move.

Confined in this labyrinth of eyes
Hunted and dehumanized.
