

Scorched Earth Policy

Revocation

Weaponized to neutralize
Always on patrol
Under constant surveillance
Their need for control
Automaton gaining sentience
A glitch in the system
Raining down hellfire on innocent civilians

Now we're all just dots on a screen
Just blips on a radar
The human race is obsolete
Total extermination

Cold and calculated
Prowler of the skies
Ceaseless in its devotion
The ever watchful eye

All organic life forms will perish in their wake
There will be no survivors on our judgement day

All the failsafes have failed
Welcome to the new regime
The only law of the land
A scorched earth policy
