Scorched Earth Policy

Revocation

Weaponized to neutralize
Always on patrol
Under constant surveillance
Their need for control
Automaton gaining sentience
A glitch in the system
Raining down hellfire on innocent civilians

Now we're all just dots on a screen Just blips on a radar The human race is obsolete Total extermination

Cold and calculated Prowler of the skies Ceaseless in its devotion The ever watchful eye

All organic life forms will perish in their wake There will be no survivors on our judgement day

All the failsafes have failed Welcome to the new regime
The only law of the land
A scorched earth policy
