

## Fly to Crystal Skies

## Rhapsody of Fire

In death we will live again  
And feel magic flames

This night will fade, the sun will rise again  
Remember tomorrow my friend

Fly to crystal skies  
See the flames rising from my past  
And we'll fly to crystal skies

Tomorrow it's so far away  
In darkness we all will remain

This night will fade, the sun will rise again  
Remember tomorrow my friend

Fly to crystal skies  
See my flames rising from the past  
And the stars are brighter tonight

Rain fills the silence  
I hear the cold wind call my name

Fly to crystal skies  
See the flames rising from my past  
And the stars are brighter tonight  
Fly to crystal skies  
Magic flames rising from the past  
And we'll fly to crystal skies
