

In Your Love

Rhett Akins

All of my life I thought I knew the answers
Until you came along I never questioned why
You showed me what it means to love someone forever

You're the dream in my heart
It's always been there
You're the window to my soul

I live, I die, I'm born, I'm sanctified
In your love, in your love
I'm home, I'm free, I've found everything I need
In your love, in your love

I don't know just how or where I'd be without you
Now that you've become a part of who I am
I can feel your touch in everything that I do

You're the smile when I cry
You're the road when I'm lost
You're the breath that gives me life

I live, I die, I'm born, I'm sanctified
In your love, in your love
I'm home, I'm free, I've found everything I need
In your love, in your love

I'd do anything for you just to prove my faith
In your love, oh yeah

I live, I die, I'm born, I'm sanctified
In your love, in your love
I'm home, I'm free, I've found everything I need
In your love, in your love

I live, I die, I'm born, I'm sanctified
In your love, in your love
I'm home, I'm free, I've found everything I need
In your love, in your love
