

Complicated Man

Miller, Rhett

Complicated man, ticking timebomb, shaking hands
The darker arts were never part of the plan
But it turns out I'm a complicated man

Mystery to myself, there are issues, mental health
I tried to hide my bad side when we began
But baby, I'm a complicated man

Understanding girl, caring deeply wearing pearls
By dawn we're so far gone, we can't seem to land
And you say : 'Baby, you're a complicated man'

Hold me, just hold me
Feel me, unfold me
Abide me if you can
I'm a complicated man

Complicated man, holding court while I can't stand
Everyone is having fun but the band
Forgive me, I'm a complicated man

Hold me, just hold me
Feel me, unfold me
Abide me if you can
I'm a complicated man
Love me if you can
I'm a complicated man
