

Close Your Eyes

Rhodes

Maybe I'm, maybe I am just as scared as you
It's alright, stay by my side
On the edge, on the edge of everything we know
It's alright, just don't look down
And I will hold on

I'll never let go
You're right beside me
So just close your eyes
I'll never let go, you're all that I need
So just close your eyes

When I look back
I look back on the times you tried to hide
Inside your delicate mind
In the end, in the end I'm just the same as you
And it's alright, just stay by my side
And I will hold on

I'll never let go
You're right beside me
So just close your eyes
I'll never let go, you're all that I need
So just close your eyes

I would die for, I would die for thee
So get in my heart
I would die for, I would die for thee
So get in my heart
So just close your eyes
So just close your eyes
Just close your eyes

I'll never let go
You're right beside me
So just close your eyes
I'll never let go, you're all that I need
So just close your eyes
