

I'm Not Ok

Rhodes

Don't cover up that hurt that I can see
The way you fall apart is killing me
I can be that giant that you need
To pull you from the dark until you're freed

Don't wreck yourself to fear of cold desire
Or running to the night like into the wild
There's something that I need you to understand
So give me your hand

When nothing feels real anymore
You know you can say
I'm not ok
I'm not ok

Stars over the city start to fade
Don't let it all get dark by the day
You can't take back the choices that you make
Don't carry that weight

When nothing feels real anymore
You know you can say
I'm not ok
I'm not ok

When nothing feels real anymore
You know you can say
I'm not ok
I'm not ok

So let me hold you
I wanna get to know you
You know you can say
You know you can say

Where'd you turn to
Where'd you turn to
From here
From here

When nothing feels real anymore
Where'd you turn to
Where'd you turn to
Where'd you turn...

When nothing feels real anymore...
You know you can say
I'm not ok
I'm not ok
I'm not ok

When nothing feels real anymore
You know you can say
I'm not ok
I'm not ok

When nothing feels real anymore

You know you can say
I'm not ok
I'm not ok
