

Love You Sober

Rhodes

5 o'clock in the morning
I know that I've woken you up
I know I'm not the kind of man
That you are dreaming of
Night after night, time after time
I know I'm not perfect
I know I'm not easy to love

I was just trying to drink the pain away, not drown myself
I'm sorry I've been gone so long, I know I

Don't need another way to hide
Just need another way to hold on
Find another way to shut the dark side out
I want to treat you better
Don't need another way to lie
I need another way to hold on
Find another way to shut the dark side out
I want to treat you better
I want to love you sober

Staying out isn't fun
When you're losing the ones that you love
Rest your head on my shoulder
I don't want to hurt you no more
Trying to find other ways to be reckless
Is not easy you know

I'm sorry I've been gone so long, I know I

Don't need another way to hide
Just need another way to hold on
Find another way to shut the dark side out
I want to treat you better
Don't need another way to lie
I need another way to hold on
Find another way to shut the dark side out
I want to treat you better
I want to love you sober
I want to love you sober, oh

When you're face down on the floor
And your back's against the wall
You're about to lose it all
You're about to lose it all
You don't recognise yourself
Trying to be someone else
You just need someone to love

Don't need another way to hide
Just need another way to hold on
Another way to shut the dark side out
I want to treat you better
Don't need another way to lie
I need another way to hold on
Another way to shut the dark side out
I want to love you sober

Don't need another way to hide
Just need another way to hold on
Find another way to shut the dark side out
I want to treat you better
Don't need another way to lie
I need another way to hold on
Find another way to shut the dark side out
I want to treat you better
I want to love you sober
I want to love you sober
I want to love you sober
I want to love you sober
