

# Always And Forever

Richard Smallwood

The stars will shine  
The moon will glow  
The sun will rise  
The grass will grow  
Some things will never change  
Just like me and you  
Mountains high and valleys low  
I have got to let you know  
That I am here for you  
Whatever you go through  
Troubles come and get you down  
I'll always be around to say

I will be here always and forever  
I'll be here for you  
we will be strong  
forever and ever  
As far back as I can remember  
Thirty-one days in the month of December  
Life will still go on  
But it's just not the same  
Miles and miles and miles are between us  
Lide Earth to Mars and then on to Venus  
Although you have gone away  
I still see your face  
And these memories linger on inside our  
hearts always

Oh Lord, You've answered my prayers  
You sent me my best friend
