

Always Sisters

Richard Smallwood

Always Sisters, Always Friends ...

Always Sisters, Always Friends
Let's stay real close till the end
Forgiving each other, letting love cover
Always Sisters, Always friends

We have to live in harmony
Even though we may disagree
Fighting each other, is not the answer
But sharing the greatest gift, Oooo
Let's be enriched with peace and love
Having compassion from above
Never forsaking just understanding
Ain't that what families are made of
Always Sisters, Always Friends

No matter what may come or go
We stick together and it shows
This bond between us
Foundation is trust
That's what true family is all about.

We really gotta' learn to love each other
I need to stick real close by your side
There's no way that we can live without each other
So why do we try

Forever and always , I'm always gonna be with you, always
Forever and always, No matter what you're going through, always
