Don't Help The Devil

Richard Smallwood

```
I got a friend who thinks he's right on time,
He's got the answers for everyone else on a shelf
He's really angry but he says he's fine
Sees his finger point but not the three back at himself
* how deep does your love run ... Before your love runs out
How long you gonna talk about others before you're all talked o
ut
You better get used to yourself now... Some things you can't co
ntrol
Maybe ask for what you need a little more help for
And Don't help the Devil... Devil's doin pretty good on his own

I got a sister knows a thing or two
She's keepin track of all the nasty little things that I do
Got a name for every game I play
And tells her friends that you didn't hear it from me

I'm never more than one step away from things I used to do
It only takes a push from behind to make me act the fool
And so I take a look at myself... And I gotta say...
```
