

# Burn It Down

Richie Kotzen

I drove a brand new car  
colored black and red  
and a big old house  
with a king-sized bed  
all money could buy  
was all that I had  
till one day I lied  
and my woman said

You know you're playing with fire  
burned it down to the ground  
down down down to the ground

I traveled in first class  
anytime I chose  
playing on the road  
town to town show to show

And one day it all  
came to an end  
when she found her sister sleeping in my bed

She said you're playing with fire  
burnt me down to the ground  
down down to the ground

I went from black to red  
all my money spent  
from 5th Avenue down  
to living in a room  
from champagne on ice  
to canned beans and rice  
I lost everything I knew  
just by crossing you

You said you're playing with fire  
I burn it down to the ground  
down down down to the ground
