

# Cannibals

Richie Kotzen

Are you hungry for your kind?  
Are you craving just a small peace of mind?  
Too much now it's not enough it's the price we've got to pay  
O it's a shame when you self degrade degrade degrade degrade

Now we're living like animals We're becoming the Cannibals  
It started off with a taste and now we're tasting what we're made of  
Another kill to be better off A slice of life for the Cannibal  
It's time to sharpen the claws and go get yours  
What are you made of?

Are you guilty to the bone?  
What's the difference? We are cut from the same stone  
Stop now but we've gone too far its a war we've got to wage  
There's always someone with a sadder face to pay to pay to pay

Now we're living like animals We're becoming the Cannibals  
It started off with a taste and now we're tasting what we're made of  
Another kill to be better off A slice of life for the cannibal  
It's time to sharpen the claws and go get yours  
What are you made of?

Now we're living like animals We're becoming the Cannibals  
It started off with us tasting now we're tasting what we're made of  
Another kill to be better off A slice of life for the cannibal  
You'd better sharpen your claws and go get yours  
What are you made of?

Animal, Animal Bury Me Deeper In The Ground  
Animal, Animal Bury Me Deeper In The Ground
