

# Fear

Richie Kotzen

I shut the door and promising  
The shallow word that suffocates the air  
There's always hope but then your never there  
What can I do to forget that I'm breaking

And I fear that I've finally reached the end  
And I feel like I'm gone again, Gone again  
Fear, I know its never gonna end  
And I feel like Im going down, going down, breaking

I'm alone no matter where I am  
The shadow led me to my own distress  
Here I go into the black again  
But you wont hear me when I'm waking with the dead

And I fear that I've finally reached the end  
And I feel like I'm gone again, Gone again  
Fear, I know its never gonna end  
And I feel like I'm going down, going down, breaking

My mind tricked my mind and my soul sold my soul  
My heart broke my heart and I'm wasted  
And I'm wasted throught my fear
