

Get a Life

Richie Kotzen

You sit around and watch the tv
They call you lazy
You say your lookin for a job but nobody will pay me
You say you have a lot of time and your barely 23 years old
You live at home and you just need a little help
Put it off for a while but dont let it go

Get a get a get a life already make it on your own can you?
Get a get a get a life and maybe something better will come

You say your not the nine to five type you never could take it
You say you could have went to school but its too complicated
Now your runnin out of time and you not 23 years old
You still at home and its too much anymore
Put it off for a while but your gettin old

Get a get a get a life already make it on your own can you?
Get a get a get a life and maybe something better will come
When you try
