

Good for Me

Richie Kotzen

You were always the one who listened
I was always somewhere else
I tried to be the one who always knew
Now I find the answer is with you

I was so blind but I feel it now
I can see that your good for me
I hope your ready this time
I was so tired but I feel alive
I can see that your good for me
I hope your ready this time

You know you help me to understand
All the things I left to chance
So can you be someone to hold on to
I can be the one you call your man

I was so blind but I feel it now
I can see that your good for me
I hope your ready this time
I was so tired but I feel alive
I can see that your good for me
I hope your ready this time
