

# Help Me

Richie Kotzen

I've been thinking so much but  
Can't remember everything  
Maybe I was hypnotized by last night

Asking all my friends about it  
They can't tell me nothing  
All I wanna do is know why

Help me, lady  
Help me remember  
Help me I'm unfortunate  
Lady, I'm just a poor boy

Help me, I'm crazy  
Help me, I love you  
(You know I don't)  
I say, help me, I'm confused

Help me with the things I don't get so well  
Help me with the things I can't do

Help me, can you help me?  
Gonna try, gonna try this time

'Cause I don't wanna lose

Help me understand it  
Understand it, understand it  
Understand it, understand it  
All right

Help me to forget about the past that I'm running from  
Help me to remember  
Remember how I feel about you

Help me, Stacy  
Help me, Alicia  
Help me, Leticia  
It's gotta be one of you

It's making me crazy  
My eyesight is hazy  
You're torturing me, baby  
Now where're we at?

I say, help me, I want you  
Help me, I need you  
Help me, I'm bleeding you  
I'm so confused
