

# It Burns

Richie Kotzen

Take a little time read between the lines and you won't  
Have to wonder any more  
Why life is what it is you take more than you give  
Until there's nothing left at all  
Look into your eyes try to realize where it's all goin'

Too far gone to know so you keep on pushin' the line  
until it burns  
You can't let it go you decide to fight it you try to but  
it  
Burns

One day you will find the words that can describe  
what it is  
Your fantasy is made of  
Fiction feeds the fire, faith can cure the lie  
But change won't come until you see the light  
Look into your eyes try to realize where it's all goin'

Too far gone to know so you keep on pushin' the line  
until it burns  
You can't let it go you decide to fight it you try to but  
it  
Burns  
Straight into the fire
