

Last Words

Richie Kotzen

it has been a while
give me a sign that you made your way
remember the life that I gave to you
tell me there's more than what's left in me
the last words between you and I
the last words between you and I
so much more than I need I can finally see
what it was you meant to me
oh there's got to be another life beside the life I lead
the last words between you and I

hey I saw the light
time is the devil whose killin' me
I know right now I can't beat it
the past is more than a memory
the last words between you and I
the last words between you and I
now thats its over I can't believe
how short lived were the reasons
I'm dyin' inside you got all I gave
the last words between you and I
the last words between you and I
its been a while
time stancin' still and I can't live
one more day... without you
