

Lets Say Good Bye

Richie Kotzen

Turn out the light, our story is ending
We wore this thing so far down I can't tell what I'm talking about
Take what you want, this old love is empty
And I don't have anything here that I can't live without
You say your spirits gone, I can't say that your wrong
Oh, I know we tried, we came into it strong
Maybe we stayed in too long, woman, let's say goodbye
Tell me a lie so I can believe
There's more than this moment to moment passing us by
Look in my eyes and I'll know it's over
And I will go on from right here with the rest of my life
You say your spirits gone, I can't say that your wrong
Oh, I know we tried, we came into it strong
Maybe we stayed in too long, woman, let's say goodbye
I can take a loss I will move on, say goodbye, yeah, ooh
Let's say goodbye
Oh, you said that I will never leave you
I said, "I think you're crazy"
You said, "I would never leave you"
I said, "I think you're crazy"
You said that I would never leave you
And I said, "I think you're crazy"
