

Make It Easy

Richie Kotzen

Stand up and [?] what we're here for
And fly, it's time for living
The world is spinning in the free fall
Let go and break the limit

Everyday I'm feeling like I'm...
Longing now
Maybe you can school me one more time

It's all in the way you use it
You make it so easy
Easy to love you
Show me the way you do it
So I can make it easy
Easy to love me

My road is like an every day fool
Somehow you keep him kneeling
Oh no, the days are numbered, it's true
Before you stop believing

Everyday I'm feeling like I'm...
Losing ground
Maybe we can turn it all around

It's all in the way you use it
You make it so easy
Easy to love you
Show me the way you do it
So I can make it easy
Easy to love me

It's all in the way you use it
You make it so easy
Easy to love you
Show me the way you do it
So I can make it easy
Easy to love me
