

Natural Thing

Richie Kotzen

Through all of my life I've always managed to
Conquer the things I set out to do
Now you can take my words lightly
If that's how you want it child
But I'll always be true to you

So don't tell me my love isn't factual
I've been infatuated before baby
Ain't nothin' to work at in my mind
We got a natural, natural thing

I bare you my soul if if that's what you really need
Whatever it takes to make you believe
Now we both know my promises
don't always come easily
But I know what you meant to me

So don't tell me my love isn't factual
I've been infatuated before baby
Ain't nothin' to work at in my mind
We got a natural, natural thing
