

# Soul to Soul

Richie Kotzen

Don't tell me no my child ain't nobody else in this world  
That's makin' me feel like I do, oh no oh

You know my heart is where you want it  
I know our love is more than factual  
Because when two people feel like we do  
You know nothing that can tell you it's wrong, oh no  
This is true love that brings us soul to soul I know

One look at my life and I can see very clear  
Why this situation is happening here  
Because no matter how hard it may be  
I know nothing is worth more to me, oh  
This is true love that brings us soul to soul I can see

I know what I'm told but nobody knows my soul  
I feel the blood run cold I know they're not the same  
By the reasons that I'm told for why I feel this way  
I know what they don't know...

Only true love can bring us soul to soul  
Only true love can bring us soul to soul, oh  
Only true love can bring us soul to soul, I Know  
Only true love can bring us soul to soul, oh

Yeah...
