

# Tell Me That It's Easy

Richie Kotzen

I don't understand it  
I just can't understand it  
and i feel crazy

I know one way or another  
I've got to try to find  
a reason to motivate myself

oh I don't know where I lost the way  
Oh maybe in time I'll remember what you say

Help me with the path I fall away from  
Won't somebody tell me

How long, 'till I get to where I want  
Just tell me that it's easy  
How long, 'till I get to where I was  
Tell me that it's easy

From the lightning and the thunder  
There's a spell it that put me under  
It change me

I was clear and I was fast  
And I was so far from the past  
But now I'm falling back again

I get so tired  
I wanna be strong again  
I need somebody to lift me up  
So that I can see

Oh tell me what?  
Tell that I got a chance  
Tell time gotta go there  
I gotta go fast

Oh tell me  
How long, 'till I get to where I want  
Just tell me that it's easy  
How long, 'till I get to where I was  
Tell me that it's easy  
How long, 'till we can live with who we are  
You know it isn't easy

----solo----

How long, 'till I get to where I want  
Just tell me that it's easy  
How long, 'till I get to where I was  
Tell me that it's easy  
How long, 'till we can live with who we are  
You know it isn't easy
