

# Things Remembered Never Die

Richie Kotzen

I got off of work on payday  
I worked with boys without a care  
oh yeah  
I came home late that evening  
I thought I'll find my baby there

You could say that she was with me  
But no one was sitting in her chair

I'll remember her face  
I'll remember her smile  
I'll remember the way she used to love me  
It was a while  
I cried oh I cried  
Things remembered never die, no  
No, will they never die

I call Mr. policeman said  
seen my baby anywhere  
I said, I said listen to me please man  
No one listen and no one cared  
Nobody listen to me

I called to her friend's house  
No one had seen her there  
No one had seen my baby anywhere

I'll remember her face  
I'll her smile  
I'll remember the way she used to love me  
It was a while  
I cried, oh I cried  
Things remembered never die noo  
No they never die

I've heard the telephone ring  
what they've said I can't believe  
oh I can't believe my baby is gone  
They saw her there on the bank  
There was no sign of my little girl

Strange things happen  
It's a crazy, crazy, crazy piece world  
Yeah it's a crazy world

I'll remember her face  
I'll her smile  
I'll remember the way she used to love me  
It was a while  
I cried, oh I cried  
Things remembered never die, no
