

## Can You Feel It?

Ricki-Lee

Can you feel it? I can feel it, can you feel the beat on the floor?

Stepping out tonight I'm feelin so good  
in the mood for something new  
gonna shake my shit into tonight  
Tending not to be again misunderstood  
by the girls who think they do  
have a right to step into, my, spotlight

Can you feel it? I can feel it  
Can you feel the beat on the floor  
Can you feel it? I can feel it  
Can you feel the beat on the floor

Feeling like I wanna remain in the groove  
wanna shift close to you  
feel your body move up next to mine  
Losing track of whose turn it is to (hit hit)  
got your hands around my (hip hip's)  
and I'm thinking I'm gonna lose my grip

See I don't normally do this but I'm just so into you  
My body's burning up my pulse is double time  
Wanna hit the floor with you and groove
