

# Happy Ever After

Ricki-Lee

I'm wide awake  
But I'm still dreaming about you  
If forever was today  
I would never let it slip away  
If too good to be true  
Is really two to two be true  
Then I guess we'll have to lie  
So let's lie here all night

Hello Mr. Moon so bright  
(Hello Mr. Moon so bright)  
Guide my paper plane tonight  
(Guide my paper plane tonight)  
Take me to where ever land  
(Take me to where ever land)  
So we can crash in true romance  
(So we can crash in true romance)

We're walking on a dream tonight  
So raise your hands up to the sky  
Are you with me?  
Are you with me?  
Let's go and never turn around  
Lets love and never broken round  
Are you with me?  
Are you with me?

Making love in slow motion  
Can we keep it on replay  
Every once in a while  
Life gives us a fairy tale

We're walking on a dream tonight  
So raise your hands up to the sky  
Are you with me?  
Are you with me?  
Let's go and never turn around  
Lets love and never broken round  
Are you with me?  
Are you with me?
