

Left To Right

Ricki-Lee

OH OOOHH...

Move it left to right [x3] (OH OH)
Move it left to right [x3] (OH OOOHH)

Stop questioning and don't ask me
Don't chase me cos you can't catch me
Don't look because you won't see me
Don't judge because you don't know me

Everybody's out of control
There's something so irresistible
About leaving it all behind
Just leave it all out on the floor tonight OH!

Move it left to right [x3] (OH OH)
Move it left to right [x3] (OH OOOHH)
Everybody get on the floor
And let the music lift your soul
Raise your hands up to the sky
Brace yourself come on let's go
Move it left to right [x3] (OH OH)
Move it left to right [x3] (OH OOH HH)

Drink in my hand yeah that's right
And we're dancing until the sunlight
Walk in the club and it's all eyes
Hips are shaking with the bass line
So let's escape, together we can dance the night away
Just let it go, we're gonna party like its our final day
So everybody, OH!
