

# Never Let Go

Ricki-Lee

I could just stay right here on this summer night  
Baby with you... with you  
And let the rain fall down cause nothing can touch us now  
When I'm with you... with you

Somebody pinch me cause I don't feel alive  
Cause there's a chemical reacting inside  
And if I'm dreaming I won't open my eyes tonight

Can we just hold on to this moment forever  
And never let go-oh-oh, never let go-oh-oh  
If we could just freeze time, we can melt right here together  
And never let go-oh-oh, never let go-oh-oh

Can we lay right here for eternity  
Stay close to me... oh to me  
Touch my skin, I wanna feel you breathing  
Next to me... next to me yeah

Somebody pinch me cause I don't feel alive  
Out of body looking down from the sky  
And if I'm dreaming I won't open my eyes tonight

Can we just hold on to this moment forever  
And never let go-oh-oh, never let go-oh-oh  
If we could just freeze time, we can melt right here together  
And never let go-oh-oh, never let go-oh-oh

Never let go...

Can we just hold on to this moment forever  
And never let go-oh-oh, never let go-oh-oh  
If we could just freeze time, we can melt right here together  
And never let go-oh-oh, never let go-oh-oh
