Nobody

Ricky Dillon

I've seen every place
and pretty face
and then my heart
they took

And now I come to realize
there's nowhere left to look
And even when I'm struggling
or can't seem to get by
You're right there by my side

I see every single message
you're sending to my phone
And checking every photograph
whenever you're alone

What I gotta do to show
what you mean to me
It's not as easy
as it seems

Don't know how to say it
there's no other way and
I'm telling you every single day

I don't want
Nobody, nobody
Nobody, nobody
but you, you, you
You're one of a kind
I'm losing my mind
I'm telling you all of the time
I don't want
Nobody, nobody
Nobody, nobody
but you, you
N-n-n-nobody but you

Instrumental

I've never needed someone else
as much as I need you
I'm letting go of all my fears
I've never seen the blues

And baby I'm still struggling
and trying to get by
but I know I'll be alright

So throw 'em up
and knock 'em down
And get up outta my way

Cause I'm running to your doorstep
And begging you to stay
Tell me what I gotta do
to show you what you mean to me

Oh you make my life complete

Don't know how to say it
there's no other way and
I'm telling you every single day

I don't want
Nobody, nobody
Nobody, nobody
but you, you, you
You're one of a kind
I'm losing my mind
I'm telling you all of the time
I don't want
Nobody, nobody
Nobody, nobody
but you, you
N-n-n-nobody but you

Instrumental

(N-n-n- nobody but you)

Don't know how to say it
there's no other way and
I'm telling you every single day
I don't want nobody but you

oh,you're one of a kind
I'm losing my mind
I'm telling you all of the time
I don't want
Nobody, Nobody
But you
