

Our Love

Ricky Van Shelton

Well I never did think that anything happens for a
reason
I thought that life was one great big roll of a dice
And the only way that love ever went... was somebody
leavin'
Well then you came along and I'm holding on for dear
life
And Our Love... was more than I was ever dreaming of
Like a grand design from start of time, I was waitin'
on love
And Our Love... laid out like the stars in the heavens
above
It's destiny, it's meant to be, it's you and me and Our
Love
Well I never did put much faith in any palm reader
I never saw my fortune in a crystal ball
Awh but when you take my hand and I look in your
eyes... I'm a believer
Well the future is bright with you here I see it all
And Our Love...was more than I was ever dreaming of
Like a grand design from start of time, I was waitin'
on love
And Our Love... laid out like the stars in the heavens
above
It's destiny, it's meant to be, it's you and me and Our
Love
And Our Love...was more than I was ever dreaming of
Like a grand design from start of time, I was waitin'
on love
And Our Love... laid out like the stars in the heavens
above
It's destiny, it's meant to be, it's you and me and Our
Love
Well, It's destiny, it's meant to be, it's you and me
and Our Love
