

# Melanie

Right Said Fred

Melanie lives on my ceiling  
Melanie speaks in my head  
Melanie comes out at nighttime  
Melanie comes to my bed  
Melanie come, Melanie come

Melanie knows what is sacred  
She gives me all that I need  
With her amphetamine heartbeat  
She keeps me right up to speed  
Melanie come, Melanie come  
Come Melanie

She's watching me drifting slowly out to see  
She's watching me, watching her but all I see  
Is Melanie

Melanie she takes some beating  
She's seen the good and the bad  
Melanie she's been there for me  
When no one else ever has  
Melanie come, Melanie come  
Come Melanie

She's watching me drifting slowly out to see  
She's watching me, watching her but all I see,  
Is Melanie

Is Melanie

She's watching me, watching her but all I see  
Is Melanie
