

It's Not Love That You Want

Ringo Starr

It's not love, that you want
Yes, it's love, that you need
Give me love

Somedays when you fall apart
Waking up with a broken heart
You've been there before
Just don't know what to do
And when you're full of doubt
Always looking for the easy way out
Searching for love
But nothing's coming through

It never works out
Running away (Running away)
You know you gotta stand up
And face the day

It's not love, that you want
But it's love, that you need
Give me love

When you're feeling the sun don't shine
Don't worry we got plenty of time
All you can do
Is let that feeling go
You're not alone at the end of the day
There's always someone who can show you the way
Just reach out
It's always up to you

It never works out
Running away (Running away)
You know you gotta stand up
And face the day

It's not love, that you want
Yes, it's love, that you need
Give me love
It's not love, that you want
Yes, it's love, that you need
Give me love
It's not love (It's not love), that you want (That you want)
Yes, it's love (Yes, it's love), that you need
Give me love, give me love, give me love
