

The Husk

Rings Of Saturn

A hive of tormented consciousness slowly rears its ugly head
Dissection of the eye to view its regret

Exhale human essence, and become the empty cadaver
The husk, to be filled with endless virtue
A sacrifice, required, for the noxious cosmonaut
The blood will be drained, then
Carefully mix the next cerebral cortex
Only to harvest and be bred with the best
Blood dripping through the cracks
Now it's time to pay the fucking debt
For the wait for you to evolve, fruitless

Eradication of prehistoric hominids, evolutionary war
Eradication of prehistoric hominids, evolutionary war
