

# Torches

Rise Against

**Am C G Ami**  
On clearer days I can see the lights from my bedroom door,  
**Am C G Ami**  
on windy nights I can smell the lake as it drifts to me from the shore  
**Ami C G Ami**  
the traffic lights silently change a thousand times a day  
**Am C Am F Ami G**  
but I'm still waiting, yeah I'm still waiting

**Am Em G F Ami**  
R: And if my hand could block the sun,  
**Am C Ami G**  
would we ever wake up?  
**Am Em G F Ami**  
And if I turned back all these clocks  
**Am C Ami G**  
would that be time enough?

**Am C G Ami**  
I can't remember exactly when this longing began  
**Ami C G Ami**  
but I know it wasn't before the day you touched my hand,  
**Am C G Am**  
laugh and shout in blissful daze and numbers are exchanged,  
**Am C Am F Ami G**  
but I'm still waiting, yeah I'm still waiting

R: And if my hand could block the sun...

**G Ami C G**  
So put your hands where I can see them,  
**G Am C G**  
and shut your mouth, I know who you are,  
**G Ami C G Am C G**  
in a world void of feeling or heart I know that we are the torches in the dark

**G Am C**  
Let's break this down, let's make this count,  
**G Am C G**  
let's leave this one-horse town, no better time than now  
**G Am C**  
let's break this down, let's make this count,  
**G Am C G**  
let's leave this one-horse town, no better time than now

**G Am G Ami**  
The angels dance like feathers float, they're here to see and to be seen,  
**Am C G Ami**  
the clock strikes two, the music slows and each one slowly dons their wings,  
**Am C G Ami**  
once outside they all pair off and hand in hand they leave  
**Am C Am F Ami G**  
but I'm still waiting, yeah I'm still waiting

R: And if my hand could block the sun...
